6. Copy of Owners Identification
7. Copy of Applicant identification
8. Evidence of ownership- Deed etc (Deed must be Registered.)
9. Copy of Certificate of Payment from District Revenue Office

Section 4 - APPLICANT DECLARATION

I the undersigned, as applicant, on this application form declare as follows:

- 1) The information provided on this application form is true and correct.
- 2) I will not solicit or engage the services of any employee of the Water and Sewerage Authority in furtherance of this application.
- 3) I have read the following requirements and understand same:

Requirements for Building Development Approval

1. Application with Required attachments and fees (\$2500.00) – refer to application form.
2. Upon receipt of Outline Approval the applicant must obtain Design Approval before installation of water and wastewater infrastructure. As such applicant must submit to the New Services Department of the Authority:
 - ✓ Detailed design drawings of the water reticulation system (Four (4) copies on A1 size sheets)
 - ✓ Preliminary Fire Services Approval from the Trinidad and Tobago Fire Services.
 - ✓ Design data and detailed design calculations and drawings of the wastewater disposal system along with required setbacks. (Four (4) copies on A1 size sheets).
 - ✓ Water reticulation details (Four (4) copies on A1 size sheets).
 - ✓ Manufacturer's equipment specifications, where applicable.
 - ✓ Design Review Fee as applicable.

Note: where designs do not meet the requirements of the Authority, applicant must make the necessary corrections and resubmit. A resubmission fee applies.

3. Upon receipt of Design Approval applicant must:
 - ✓ Submit a schedule of works
 - ✓ Written request for inspection
 - ✓ Pay inspection fees

Note where repeat visits are required re-inspection fees will apply

4. Upon successful inspection of the water infrastructure, applicant must undertake pressure testing of the water infrastructure. Upon notification of Pressure Testing, applicant must prepare infrastructure on date of testing, by bringing the pressure on the water infrastructure to 150PSI for 24hrs.

Note: the Authority will install a pressure logger on the infrastructure to pressure test same. The installation fee for the logger is \$1200.00.

5. Upon successful pressure testing the Authority Applicant must install meters for each lot. The Authority will then inspect the meter installation and collect data required for billing.
6. The Authority will then issue an invoice for interconnection, the cost of which represents the estimated cost to be incurred by the Authority in conducting the installation. When applicant pays the cost of interconnection a Completion Certificate will be issued.
7. Interconnection will then be scheduled and when completed an account will be created for each lot.
