

ADVERSE WEATHER IMPACT STATUS

Overnight rainfall in parts of North Trinidad continues to affect operations at some of the Authority’s surface water treatment facilities, while some have resumed operations as follows:

REGION	FACILITY LOCATION	AREAS AFFECTED	STATUS
North-East	Tompire	Toco, Balandra	Returned to service
	Quare	Parts of Valencia	
	Guanapo	Parts of Arima, Pinto Road, Mt. Pleasant, Calvary Hill	
	Aripo	Santa Rosa Heights, Pinto Road, parts of Tumpuna Road and Valencia	
	Matura	Matura	High turbidity and clogged screens caused by flooded rivers arising from heavy rainfall
	North Oropouche	Maloney, Carapo, Malabar, Five Rivers, Tumpuna, Sangre Grande, Manzanilla and environs	
	L&N	Parts of Maracas, St. Joseph	

The Authority will continue to provide updates as every effort is being made to return these facilities to service at the earliest possible time.
