## A Legacy of Integration & Progress

Established in 1965 by the Water and Sewerage Act Chap. 54:40, WASA unified water and sewerage services under one national Authority, merging entities such as the Central Water Distribution Authority; Port of Spain City Council; San Fernando Borough Council; Arima Borough Council; County Councils, and the Water and Sanitation Divisions of the Ministry of Public Utilities.

Today, WASA continues to evolve, investing in resilient infrastructure and innovative solutions to secure water sustainability and ensure equitable distribution of supply for future generations.

*“WASA remains dedicated to advancing Trinidad and Tobago’s socio-economic growth, while delivering reliable, efficient water and sewerage services”,* noted WASA Acting CEO, Jeevan Joseph.
